

# Scotlandville Pre-Engineering Magnet Academy

## March 2024 Newsletter

We are beginning the 4<sup>th</sup> Nine Weeks. Please encourage your child to do all of his/her work daily to ensure successful completion of this school year. Our students are told daily that they are excellent scholars and they should pursue excellence in all that they do each day. Please check Google Classroom and JCampus often to monitor students' assignments and grades. Students must maintain a 2.5 grade point average to maintain their magnet status and must pass 13 of 16 semesters to be promoted to the next grade.

LEAP testing will begin in April. It is very important that our students attend school everyday and actively engage in the learning experiences being provided in each class. Additionally, they should be spending some time at home reviewing the materials they are covering in class. We want them to do well on the test and show that they are excellent scholars.

Congratulations to our Boys' Basketball Team – Parish Runner Up; Girls' Basketball Team – North District Runner Up; Esports Team – #1 EBRL Middle School Ranking; Sea Stallions Under Water Robotics Team – Participant in the Sea Perch Competition at LSU.
