

# Scotlandville Pre-Engineering Magnet Academy

## April – May 2025 Newsletter

### Vision

To integrate a rigorous 21<sup>st</sup> Century learning environment that will produce global learners, independent thinkers and future leaders in **Science, Technology, Engineering, Arts and Math**

The majority of our students completed LEAP testing before Spring Break. We have a few students that need to complete testing when we return. Our attention continues to be focused on providing excellent learning opportunities for our students. We have approximately four weeks left in this school year. Students need to remain focused and diligent in their work. There is much work left to do.

In order to be promoted to the next grade, students **must pass** 13 out of 16 semesters. Additionally, students **cannot fail** math or ELA the second semester. Students must have a 2.5 grade point average to maintain their magnet status. Paid Summer School may be an option for students not meeting promotion requirements. Please contact the school for more information.

Please reinforce with your child the importance of making wise choices inside the classroom as well as outside. We do not want them to make choices that could negatively impact them the remainder of this school year or into next school year. We continue to remind them of our **PBIS expectations – Be Respectful, Be Responsible, Be Positive, and Be Safe** and our **SPEMA Core Values – Respect, Accountability, Integrity, and a Spirit of Excellence**.

Thank you for allowing us the opportunity to work with your child this school year.
